

SITE WIREFRAME OVERVIEW Art By Tovias Ecosystem

1. Landing Page (/)

Component: Home.tsx

Theme: Choose Your Destiny

Visuals: Black background, gold border, three bold brand doors.

Sections:

- Welcome Header: Welcome to the World of Tovias

- 3 Brand Portals (with links):

 - Art By Tovias /artbytovias

 - Lanky Bois /lankybois

 - Tovias Sol /toviassole

2. Hero Experience /artbytovias

Components: HeroSection.tsx, ArtByTovias.tsx

Theme: Where Vision Becomes Vibration

Function: Bold splash hero leading to gallery grid.

Visuals:

- Full-screen hero image + animated text (HeroSection)

- Fade-in call to action ENTER GALLERY

- Gallery of artworks pulled from external artworks.ts file (assumed present)

- Each artwork card: image, title, description

3. Brand Pages (Each with its own identity, tone, and vibe)

/artbytovias

- Grid-based visual art showcase
- Integrated cart (Cart.tsx) tied to shared CartContext.tsx
- ProductCard.tsx and ProductGrid.tsx ready for future product/print sales

/lankybois

Component: LankyBoisHome.tsx

Tone: Urban, unapologetic, fashion-forward

"Where urban fashion meets unapologetic soul."

/toviassole

Component: TovasSole.tsx

Tone: Poetic, spiritual, eloquent

"Poet. Speaker. Soulstreamer."

4. Universal Cart System

Component: Cart.tsx (context-powered)

Support File: CartContext.tsx

Features:

- Add to cart via ProductCard
- Cart persists via localStorage
- Subtotal calculation
- Quantity updates, removal, clear cart
- Uses sonner for toast notifications

5. Navigation & Routing

File: App.tsx

```
<Routes>

  <Route path="/" element={<Home />} />

  <Route path="/artbytovias" element={<ArtByTovias />} />

  <Route path="/toviassole" element={<ToviasSole />} />

  <Route path="/lankybois" element={<LankyBoisHome />} />

  <Route path="/cart" element={<Cart />} />

</Routes>
```

6. Footer

Component: Footer.tsx

- Instagram icon @artoftovias
- " 2025 Art By Tovias. All rights reserved."

7. Support Systems

- useIsMobile.tsx Mobile detection hook
- main.tsx Entry point rendering <App />
- Tailwind CSS + custom animations (fadeIn)
- CartContext is globally applied via provider (assumed to wrap App in higher scope or to be added)

DEVELOPMENT STATUS

Feature	Status
----- -----	
Routing	Working and segmented by brand
Cart Logic	Context-based, scalable
Gallery	Art by Tovias complete

Product System | Components present (needs real product data integration)

Branding | Fully distinct identities for each sub-brand

Responsive | Mobile detection present, styles need audit

Visual Polish | Solid base, could use transitions/interactivity polish

Deployment Ready? | Almost missing vite.config.ts confirmation and possibly homepage setup in package.json

Summary (The Story This Site Tells)

This site is a triptych of your soul:

- One side speaks through visual art (Art By Tovias),
- One walks bold in style (Lanky Bois),
- And the third proclaims truth through words (Tovias Sol).

Visitors are invited not just to shop but to experience, to feel, to remember that art is activism, fashion is identity, and words are weapons of healing.
